New handbook on accepting #ICJ jurisdiction is out. #Lithuania a cosponsor

Energy Security for Entire Region

Lithuania's new [liquefied natural gas \(LNG\)](#) terminal will be able to cover around 90 percent of the gas needs of Lithuania, Latvia and Estonia, said President Grybauskaitė during the welcoming ceremony for the arrival of the liquefied natural gas (LNG) storage vessel “Independence” in Klaipėda 27 October. She noted that the terminal is not only an energy project, but also a geopolitical project that will ensure the Baltic region's energy independence. US Secretary of State John Kerry in his letter to the Lithuanian President and the Prime Minister called Lithuania's LNG terminal “a historic milestone”. Lithuania offers example of how to break Russia’s grip on energy the [New York Times](#) reported.

Broadband for Everyone

Lithuanian Ministry of Transport and Communications has prepared the [New Generation Access Network Plan for 2014-2020](#), which will provide the basic new generation broadband infrastructure in areas where no adequate broadband infrastructure was available before. The Plan will stimulate infrastructure-based competition, aiming to provide all Lithuanian residents with a 30 Mbps or above internet speed connection.

WE SUGGEST

**Stress Tests:
LT Banks
Secure**

The three largest banks operating in Lithuania - SEB bank, Swedbank and DNB bank - have very

solid capital buffers and assess risks conservatively enough. This became clear after the European Central Bank (ECB), in cooperation with the Bank of Lithuania, [inspected the asset quality of the three commercial banks and performed stress testing](#), the country's central bank said in a report.

Ahlstrom's New Service Center

Ahlstrom, a high performance fiber-based materials company inaugurated its Service Center in Vilnius 29 October. The Center will manage most of Ahlstrom's finance, accounting and customer service operations in the EMEA (Europe, Middle East and Africa) region. "Our decision to establish a Service Center in Vilnius was based on existing infrastructure, availability of talented and multilingual staff, and favourable cost structure. In addition we were impressed by the attention and support the authorities provided to us", President & CEO Marco Levi said, noting that [the company selected Lithuania after a careful consideration of the country's advantages and opportunities](#).
